

FOR IMMEDIATE RELEASE

## **Mail Manager® by Epoch Design Now Available in Select Lowe's Stores**

REDMOND, Washington (June 20, 2013) – Epoch Design LLC, manufacturer of Mail Boss® and innovative provider of USPS approved security mailboxes, announced today that its new Mail Manager® security mailbox is now available in more than 400 Lowe's home improvement stores.

The Mail Manager is the first locking mailbox to provide high security and defense to prevent mail theft and vandalism for under \$100, allowing consumers to protect against identity theft, the fastest-growing crime in the nation.

"We are extremely pleased to expand the availability of the Mail Boss brand by offering Mail Manager in Lowe's stores across the country," said Jenny DeRaspe-Bolles, Marketing Manager for Epoch Design, the parent company of Mail Boss. "The Mail Manager is perfect for homeowners who receive sensitive documents, prescriptions or small packages in the mail."

The Mail Manager was designed to offer a superior alternative to the locking mailboxes offered in big-box retailers, but at a price on parity with lower security mailboxes. It features the same high-security features as other Mail Boss locking mailboxes, including a patented anti-pry latch locking mechanism and a commercial grade 12-wafer disc lock.

"We have incorporated all of the security features of the Mail Boss, but in a smaller mailbox. Mail Manager will be the obvious choice for home owners who want high security at a lower price," said DeRaspe-Bolles.

The Mail Manager has a smaller profile than the Mail Boss, but still accepts small parcels such as checks and prescriptions. The bin-door was designed with security in mind to prevent easy fishing by hand.

Mail Manager is available in Lowe's for \$99. To find a list of Lowe's locations carrying the Mail Manager, go to [www.MailBoss.com/blog/mail-manager-now-available-in-lowes](http://www.MailBoss.com/blog/mail-manager-now-available-in-lowes).

### **About Mail Boss**

Mail Boss, a division of Epoch Design LLC, is a leading manufacturer of high-security locking mailboxes, offering home owners a true solution to mail-identity theft protection since 2006. Mail Boss has corporate offices with design and distribution facilities located in Redmond, Washington. Mail Boss products can be found in over 1,500 hardware retailers across the nation, distributed through Ace Hardware, Do It Best, Orgill and Mid-States, as well as in independent locksmiths and specialty catalogues.
